This month we meet Kelly Driver, Streetsures newest team member!

OCTOBER 2018
ISSUE 2

Mailbox Solutions

Kelly's work experience started within the retail sector; A love of fashion and customer service proved to be a winning combination for the bubbly South West Londoner. Carrying out stock control, assisting customers and handling payments were a good basis for a future in effective customer communication. Working within the clothing sector and then moving onto the automotive industry, Kelly worked her way up to Floor Manager and Branch Manager for Market Leaders H&M and Hertz.

After some analysis on her work/life balance, Kelly identified an opportunity at AST London as a Project Co-ordinator. This new role incorporated the creative aspect of Kelly's skill set along with her ability to organise, overcome challenges, develop relationships and provide solutions for anything that came her way. What have you enjoyed working on within Streetsure?

"providing accessible picnic benches & planters for wheelchair users - its been a pleasure working with Barratts on this!"

Cycle Lockers

Her move to Bellsure came after a house move and the need to shorten her commute. Bellsure presented the perfect opportunity to work within the same industry which she loved, and with her developed skill set in project management the role of Estimator was as natural as her love for her new dog Bumble.

Kelly's skill set and previous work experience allows her the scope to pre-empt problems that may arise within a project, give advice on lead times, visualise scenarios and suggest alternatives. She really is a great addition to the team, with lots of fresh ideas and insight into the trade.
