

CASE STUDY VINTNERS PLACE, LONDON

THE PROJECT

Situated on the bank of the Thames, Vintners Place is 105,000 sq ft of Grade A Office Space. Vintners Place has undergone some major remodelling and refurbishment works to create a dramatic transformation.

Spacious and modern office spaces, pools and outdoor terraces have all been designed and created to a high standard to increase employee engagement and interaction for staff. Interglaze Workspace took on the project to supply and install glass partitioning and ironmongery that suited the design-led brief.

THE SOLUTION

Our Vista team acted as an extension of Interglaze Workspace, providing customer service and support in the procurement and delivery of items needed on this project.

A selection of Primeline offset fittings, floorsprings, hinges and 'T-handles' powder coated black to match the design scheme, were selected for the project. Taking into account the premium finish required as an end result, products from our Primeline range were the obvious fit. Our durable and innovative range will stand the test of time for both aesthetic and functional purposes.

For any advice on our glazed partition fittings and the Primeline range - please email Rhys@bellsure.co.uk

Primeline™

From complete glass shop fronts and entrances to office partitioning systems and shower cubicles - Vista have a range of fittings to meet your needs.
